PROFESSIONAL SUMMARY

Sprwt

-2022 Feb- Present

As the lead developer, I spearheaded the development of a cutting-edge customer onboarding and billing management dashboard. The dashboard featured advanced capabilities such as earnings monitoring, role-based access control, and data encryption . This project was instrumental in empowering our CEO to make informed decisions and track the company's overall performance.

-2021 Jul- 2022 Feb

I played a pivotal role in developing and maintaining a sophisticated system for route planning and resource management that increased efficiency by 25% and was utilized by hundreds of companies worldwide.

-2020 Mar- 2021 Jul

I provided support for an in-house API that delivers insights about the cartography of various countries. This service saved our company thousands of dollars and opened up opportunities for further customization of our offerings.

-2019 Apr- 2020 Mar

I delivered customer support for our software, helping users navigate its features. This experience enhanced my communication skills and customer service abilities.

TECNICAL SKILLS

Backend:

- Nodejs
- Express
- MongoDB
- AWS
- Jest

Languages:

- Javascript
- TypeScript
- SQL

Frontend:

- React
- NEXT
- HTML
- CSS
- Sass
- Redux
- React Query

Other Tools:

- Git
- JsDoc
- Figma
- GCP
- Firebase
- U/I testing
- Debugging
- Docker

EDUCATION & CERTIFICATES

Software Development

- CodeCademy [certificate](#)
- Pirple [certificate](#)
- Coursera [certificate](#)
- Platzi [certificate](#)

Math

- Universidad el Bosque

C2 English Proficient Certificate

- [link to certificate](#)

GENERAL SKILLS

- Teamwork
- Good Communication
- Analytical thinking
- Empathy
- Attention to detail
