PROFESIONAL SUMMARY

Sprwt
-2021 Nov- Present

Maintained a complex system that provides a route planning and related resource management service for different companies throughout the world.

Created a API for the company services coordinaiton. This API has user authetification, data encryption, a solid chain of permissions, a chat, manage a huge SQL database and connect with stripe for payments.

I also took part by my own iniciative in the redesign of one of the company products landspage
