PROFESSIONAL SUMMARY

Sprwt

-2021 Nov- Present

Led the development of a customer onboarding and billing management dashboard, featuring earnings monitoring, roles and permissions , data encryption, efficient management of a complex SQL database, and Stripe for payments. This project helps the CEO to make important decisions and track the overall company performance.

Developed and maintained a system for route planning and resource management used by hundreds of companies around the world. In this project, I provided assertive guidance to other developers

Provided customer support to users, helping them navigate and utilize all features of the software. This experience helped me develop strong communication skills and taught me how to work with customers effectively.

TECNICAL SKILLS

Backend:

- Nodejs
- Express
- MongoDB
- AWS
- Jest

Frontend:

- React
- HTML
- CSS
- Sass
- Redux
- React Query

Languages:

- Javascript
- TypeScript
- SQL

Other Tools:

- Git
- JsDoc
- Figma
- GCP
- Firebase
- U/I testing
- Debugging

GENERAL SKILLS

- Teamwork
- Good Communication
- Analytical thinking
- Empathy

EDUCATION & CERTIFICATES

Software Development

- CodeCademy [certificate](#)
- Pirple [certificate](#)
- Coursera [certificate](#)
- Platzi [certificate](#)

Data analyst

- Universidad el Bosque

C2 English Proficient Certificate
